

AQUA-AEROBIC SYSTEMS, INC.
A Metawater Company

CERAMIC MEMBRANE SYSTEMS

Featuring

Aqua MultiBore® C-SERIES NO BREAK MEMBRANES

- High Mechanical Strength and Chemical Resistant
- Easy Operation and Maintenance
- Low Cost of Ownership

Drinking Water Treatment

- More Than 140 Installations
- 18+ Years Without Membrane Breakage
- Stable Operation Under Rapid Change of Raw Water Quality

Water Reuse System

- Shibaura Water Reclamation Center in Tokyo
 - High Quality Water
 - Capacity: 1.8MGD (7,000m³/day)
 - Ozonation: 130 ppd × 2 units (2.5kg O₃/hr × 2 units)
 - Filtration: Ceramic Membrane Filtration 9 Elements × 6 Modules × 2 Units

Aqua MultiBore® C-Series

Ceramic Cell Design

- Highly Resistant to Pressure, Heat and Corrosion
- High Water Recovery Rate
- 0.1 µm Nominal Pore Size
