## **Strategic Intent**

- Build Aqua-Aerobic Systems, Inc. into a global technology leader that provides water treatment solutions for aeration/mixing, biological processes, filtration and aftermarket products and services
- Grow Aqua-Aerobic Systems, Inc. through technological leadership and partnerships with our customers
- Uphold the values that have been key to the success of Aqua-Aerobic Systems, Inc.

## **Aqua-Aerobic Systems Research & Technology Center**

- Aqua-Aerobic Systems partnered with Rock River Water Reclamation District (RRWRD) in 2011 to build an onsite research facility at the District's central treatment plant
- The research center opened in August 2012 with access to a variety of in-plant process wastewater streams from a full scale treatment plant
- Technical seminar program customers can visit the research center to see full-scale products and respective design features and capabilities
