

AquaNereda® Installation:  
Wolcott WWTP at Wolcott, KS

## THE ONE AND ONLY. TRUE AEROBIC GRANULAR SLUDGE TECHNOLOGY

With over two decades of installed experience at more than 100 facilities worldwide, Nereda® technology is the **One and Only** true aerobic granular sludge on the market today.

Since its introduction to the U.S. and Canada in 2017, more than 40 AquaNereda® plants are currently in design, under construction or in operation throughout North America.

Consultants and end-users continue to realize the process and cost saving benefits associated with AquaNereda technology through on-site pilot testing, installation visits and technical seminars.

### ADVANTAGES OF AQUANEREDA® TRUE AGS TECHNOLOGY:

- Design MLSS of 8,000 mg/l greatly reduces footprint
- Robust process that adapts to changing conditions
- Capable of enhanced nutrient removal
- Applicable for municipal and industrial waste streams
- Suitable for retrofits and greenfield sites
- Significantly less construction cost compared to conventional treatment
- Exceptional effluent without chemical addition
- Energy and chemical savings results in lowest cost of ownership
