

AQUA-AEROBIC SYSTEMS, INC.
A Metawater Company

AERATION and MIXING

Aqua-Jet® Surface Aerator

- Municipal and Industrial Applications
- Retrievable for Easy Access
- Proven Oxygen and Mixing Performance
- Various Mooring Arrangements
- Keyed and Pinned Props Available

OxyStar® and TurboStar® Aspirating Aerator and Directional Mixer

- Separate Units Provide Efficient Aeration or Mixing
- Engineered Three-blade Spiral Propeller for Maximum Efficiency
- Durable pontoons with Galvanized Framework
- No Submerged Seals or Bearings
- Robust Design for Easy Installation

AquaDDM® Direct-drive Mixer

- High Efficient Mixing Saves Energy
- Suitable for Most Basin Configurations
- Operates in Varying Liquid Depths
- Anti-fouling Impeller
- Keyed and Pinned Props Available

OxyMix® Pure Oxygen Mixer

- Supplement Oxygen to Existing Air-based Systems
- Ideal for High Strength Industrial Wastes
- No Blowers or Diffusers Required
- Operates in Varying Water Depths
