

## Competitor Comparison - Other SBRs

Features	AquaSBR®	Competitor SBR
~1000 installations	X	?
> 25 years experience	X	?
> 300 nutrient removal installations	X	?
Retrievable diffusers as standard	X	?
Independent mixing as standard	X	?
Time-based operation	X	?
Cycle preserved to Maximum Day Flow	X	?
In-house controls programmers	X	?
Advanced process monitoring and control	X	?
UL listed panel shop	X	?
> 18 person Customer Service staff	X	?
Aftermarket Service department	X	?
Performance recognition awards	X	?
Unlimited, free customer phone support	X	?
Process training support program	X	?
Focused R&D	X	?
Decanter Design (electric actuated and ballast)		
Float follows liquid level	X	?
Low headloss (as low as 1' driving head)	X	?
Low entrance velocities (< 1 fps)	X	?
Not supported by walkway	X	?
Doesn't skim surface material	X	?
Stainless steel flex joint	X	?
AquaEnsure® Decanter Design		
No in-basin O&M	X	?
No in-basin electrical components	X	?
Low profile or covered tanks	X	?
Explosion-proof rated	X	?
Online weir position monitoring & backup	X	?
High Flow (> 15 MGD)	X	?
